**ON TIME, ON BOARD, ON BUDGET!**

## SCANMARINE

ScanMarine is an exclusive interior and outfitting turnkey contractor for the worldwide marine and offshore industry. We are ready to meet the challenges of newbuilding, conversions and re-furbishment contracts for all types of vessels and oil rig quarters whilst paying as much attention to minor assignments as to larger projects.

ScanMarine was formed in the 1980's by members from the Swedish shipyards Kockums, Öresundsvarvet and Götaverken-Arendal. ScanMarine is a well-known turn-key contractor who only work with high quality suppliers in order to build interiors with the highest of standards, at the most competitive prices and always delivered on time.

## WHAT EVER, WHEN EVER, WHERE EVER!

We are proud of being able to offer our customers a full turnkey package, starting at the first conceptual ideas all the way to a completed interior. We are also able to assist our customers with anything in between, such as design, planning, complete drawing packages, material procurement, specialized manufacturing and project management. ScanMarine is able to handle all the outfitting disciplines: insulation, piping, ventilation, electrical works, and any other interior works, such as; bulkhead/ceiling panels, doors, toilets, furniture, floor coverings, manuals, spare parts. All our products and installations are designed and manufactured according to the customer's specifications.

In addition to the full turnkey concept for new-buildings and refurbishment projects, we are flexible and ready to adopt to the client's needs for a certain project. We can for example offer our customers partial refits, deliver material packages or consultancy services. No assignment or role for a certain project is too small or too big for us! ScanMarine also offers visual turnkey solutions where our customers handle all ventilation, piping and insulation works and ScanMarine delivers and installs all the interior as well as electrical and technical connections for all visual lights and systems in the interior.

## INNOVATION

We meet not only quality, technical and cost requirements, but we also offer innovation, reliability and experience. Specializing in interiors, ScanMarine has an excellent reputation for customer service, quality and reliability. We are flexible, and can offer standard products and services, as well as special made solutions and products fulfilling our customer's individual wishes.

ScanMarine is an active member in Swedish Marine Technology Forum (SMTF) with connections to Maritime Development Center of Europe in Copenhagen (MDCE).

## QUALITY AND SERVICE

ScanMarine projects are delivered according to agreed schedule and requirements. Our strength is to push through even with the tightest project schedule and still finish on time with a quality product. This is possible due to our excellent project management skills including all activities from planning and design in our office to coordination of building activities on board during the installation period.

Since 2004 ScanMarine is certified according to the ISO 9001 and ISO 14001 quality and environmental management systems by DNV GL. This ensures the quality and efficiency of our operations, as well as our environmental awareness.
